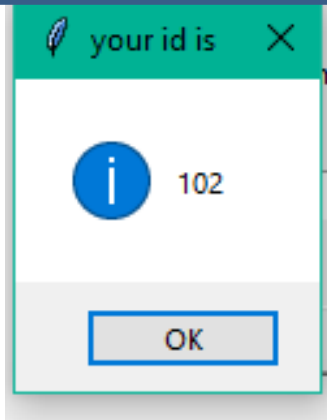

IMAGE 3 :UNIQUE ID GENERATION

A screenshot of a web application window titled "UPDATE DETAILS". The window has a teal header bar with a pencil icon, the title, and standard window controls (minimize, maximize, close). The main content area is light gray. It contains the text "enter your id" followed by a white text input field. Below the input field, there are two red rectangular buttons: "back" on the left and "next" on the right.

IMAGE 4 : ENTER ID TO UPDATE

A screenshot of the same "UPDATE DETAILS" window. The input field is no longer visible. Instead, there are seven red rectangular buttons arranged in three rows. The first row contains "change name", "change gender", and "change dob". The second row contains "change community", "change state", and "change subjects". The third row contains a single button "change marks" centered horizontally.
